---

## Professional Summary

Innovative and detail-oriented Full Stack Developer with hands-on experience in designing, developing, and deploying scalable web applications. Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js) and dedicated to creating seamless user experiences through responsive design and efficient backend architecture. Proven ability to lead projects, solve complex technical challenges, and translate business requirements into high-quality, maintainable code.

---

## Projects

### 1. Click-Fit

Developed a wellness-focused platform that provides yoga demonstrations for users dealing with pain or health conditions, enhancing physical well-being through guided exercises.

**Tech Stack:** HTML, CSS, JavaScript

### 2. Company Portfolio – [Digital Fly High](#)

Contributed to frontend and backend functionalities to enhance responsiveness, add transitions, animations, and optimize user interaction.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, JavaScript

### 3. E-Commerce Platform – [The Petro Shop](#)

Implemented frontend components and backend modules, including a dynamic cart system for storing products, ensuring efficient and seamless transactions.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, JavaScript

### 4. B2B Platform Website (In Development)

Leading end-to-end web development, implementing **role-based access control, secure password hashing, ERP dashboards**, and internal messaging systems. Managed deployment and UI responsiveness for an optimal user experience.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, JavaScript

### 5. CRM for IT and Sales – [EchoPulse](#)

Developed a role-based access system for employees, HR, and admins to manage attendance, announcements, and internal tasks. Integrated dashboards and analytics to streamline team productivity.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, JavaScript

---

## Work Experience / Internships

### Acmegrade – Data Science Intern (Jul 2024 – Sep 2024)

- Developed a **Car Price Prediction Model** using Python.
- Performed extensive data preprocessing and analysis using Pandas, NumPy, and Scikit-learn, improving model precision and reliability.

### Tech Grow – Python Development Intern (Feb 2025 – May 2025)

- Developed data-driven applications using Python and relevant libraries.
- Delivered efficient, high-performing code and solutions meeting real-world business requirements.

### Digital Fly High Solutions – Full Stack Development Intern (Jul 2025 – Oct 2025)

- Collaborated with internal teams to build and maintain multiple in-house and external web applications.
- Managed project workflows, mentored junior developers, and ensured timely delivery of assigned modules.
- Contributed to major projects including [Digital Fly High](#), [The Petro Shop](#), [EchoPulse](#) and others.

---

## Skills

- Programming Languages:** JavaScript (ES6+), TypeScript, Python, C++, SQL
- Frontend Development:** React.js, HTML5, CSS3 (Animations, Transitions, Responsive Design)
- Backend Development:** Node.js, Express.js, RESTful API Design & Development
- Databases:** MongoDB, SQL
- Tools & DevOps:** Git, Vercel

- **Core Concepts: Data Structures & Algorithms**
  - **Data Science Libraries (Familiarity): Pandas, NumPy, Scikit-learn, Data Visualization**
- 

## Certifications

- Acmegrade – Data Science Training
  - MeitY – AI/ML
  - Skill Academy – Node.js
  - Acmegrade – Data Science Internship
- 

## Education

**SAGE University, Indore**

*Bachelor of Technology in Computer Engineering (2022–2026)*

---

## Languages

English, Hindi
